

# Culture Sharing

Fennie Wang

DES 157B Winter 2022

# About

A platform that allows users to have a chance to engage with different cultures and learn about unique traditions. Users can sharing about their own culture by create their own content through photos and message but also allows users to see what other users post.

# Goals

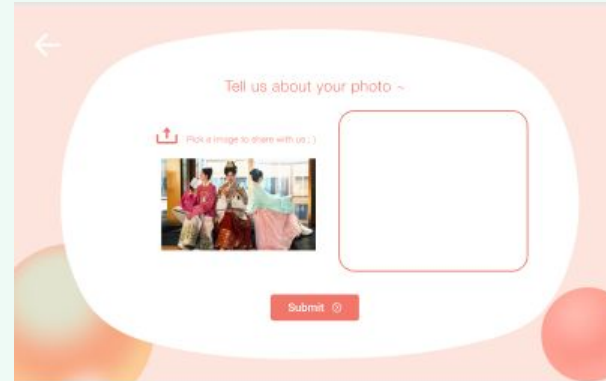

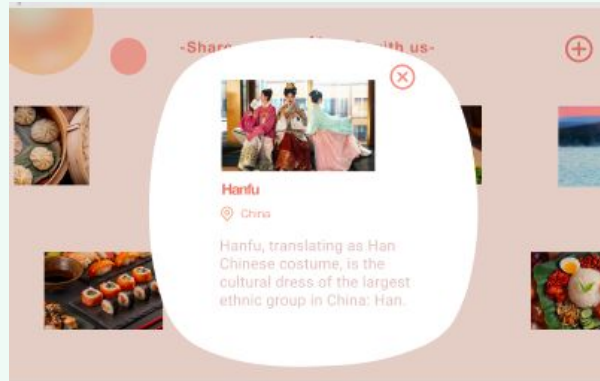

Visiting a new place gives you a new perspective on the world. When you travel, you have chance to know different cultures. But in the wake of COVID-19, it can be challenging to travel to other countries and learn about different cultures. Then my goal is to creating a community for everyone can sharing their culture and explore different cultures without traveling.

# The development: Interactive Design Comp

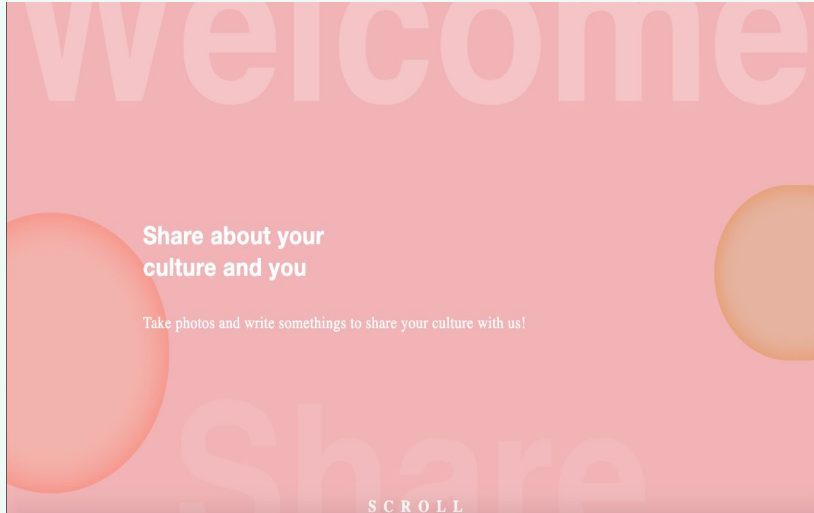

## Initial Interaction Strategies:

- Create a gallery for users to scroll the page to see each photos
- Users can click the photo to read the description of the photo
- Users can post their own photo and add a description

# The development: Version 1

## Improvement Interaction Strategies:

**Add a landing page that let user know what they can achieve with the website**

## Share about your culture and you

Are you interested in other culture? Do you want to explore different cultures without Traveling? This webpage allow you to immerse yourself in a variety of cultures without needing to travel!

**Come to take photos and write somethings to share your culture with us!**

SCROLL

Different peoples across the world have their own customs and norms. Cuisine, costume, Festivals, and architectural styles are some elements that constitute culture.

Explore the world and its diversities by picking a "culture" below!

cuisine

Costume

Architecture

Festivals

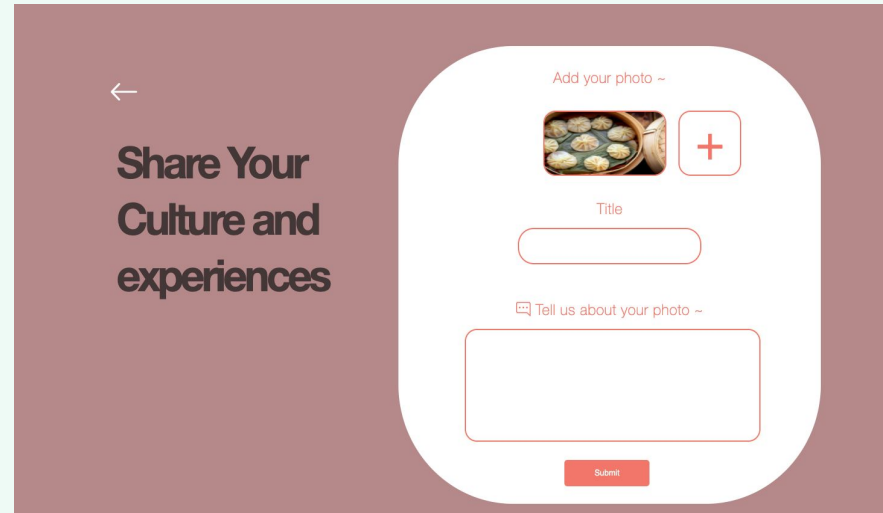

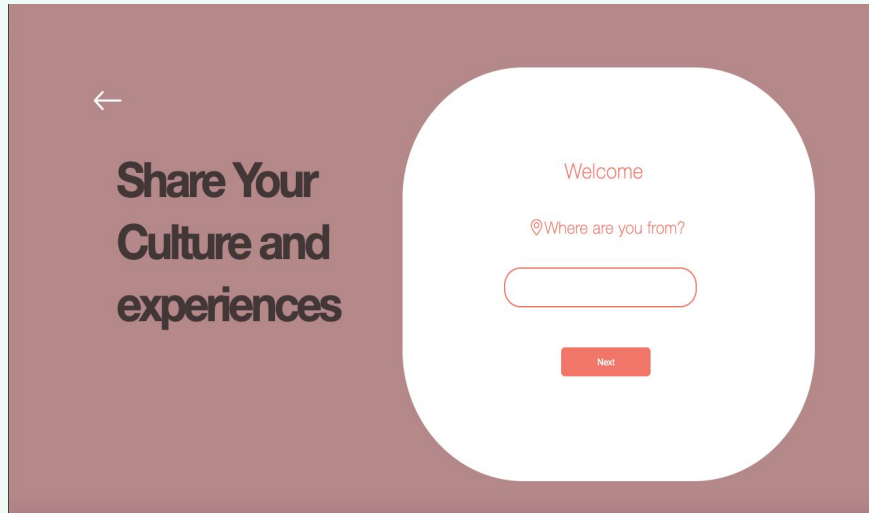

## The development: Version 3

### Improvement Interaction Strategies:

-Narrow down the gallery to a specific category, allows users have the options to posting images to a particular category.

# The development: Version 3

## Challenges

- Have trouble with getting data submit to back4App
- Upload image to back4App
